

# Quinten Duijster

## About me

Hi, my name is Quinten. I am a 19-year-old student from the Netherlands, currently studying Software and Game Development at Media College Amsterdam. I enjoy solving complex problems and continuously learning new skills. I am particularly interested in algorithms, but I also enjoy programming games, websites and software.

One of my strengths is my willingness to help other. which has occasionally led me to take on too much at once. I am learning to balance this enthusiasm with efficient time management.

## Work Experience

### Albert heijn: Bakery & Produce employee

Oct 2024 - Present

Hoogkarspel

- Work in both the bakery and vegetable sections, ensuring quality and organization
- Train new employees by explaining workflows and procedures.
- Suggest improvements to optimize the working environment and efficiency.
- Communicate issues, changes, and potential problems to the team and management.

### Dekamarkt: All-round store employee

Jul 2021 - Jun 2024

Lutjebroek

- Assisted customers at the information desk and operated the cash register.
- Stocked shelves, managed the vegetable section, and handled general store organization.
- Helped solve operational problems and suggested ideas for more efficient workflows.
- Supervised and guided small teams.

## Education
